

Lighthouse Project Training Workshops

How to increase the employment of people with disability in your Local Government

Lighthouse Project

Local employment of
people with disability

The Lighthouse Project is a partnership between LGMA and the Disability Services Commission to increase employment of people with disability in Western Australian Local Government.

As part of the Lighthouse Project, a series of workshops were conducted across the State in late 2015. The workshops were well attended and received high satisfaction ratings.

In response to the success of those workshops, LGMA are pleased to be offering a second series of free training workshops in 2016.

The workshops will cover:

- The benefits of employing people with disability.
- Undertaking disability friendly workplace audits.
- Developing strategies for "Outcome 7" of Disability Access and Inclusion Plans (DAIPs).
- Insight into the upcoming Lighthouse Grants Program (workshop participation will be considered a preference when assessing applications).
- A session with local Disability Employment Service Providers to present their services.
- Sharing of best practice examples of disability employment.

The training workshops will lead into a Grants Program to assist local governments to implement their Outcome 7 strategies.

It is highly recommended that each Local Government send at least one senior staff member (preferably those in general management, HR, Community Development or similar roles) to attend a workshop. Lunch and refreshments will be provided.

If you have any questions about the Lighthouse Project or the workshops, don't hesitate to contact Tiffany Tonkin, Senior Consultant at Localise on (08) 9271 1030.
